# Palos Verdes Peninsula Land Conservancy

invites you to become an intern

# 2017

# educational assistant

## Description

Educational Assistants will work under the direction of the Education Program Manager to assist in educational field trips as well as prepare and maintain educational materials. Assistants work with students ranging from kindergarten through high school who are part of our Science Students as Stewards Program conducted at local nature preserves. The field trips are designed to cover California State Science Standards and are presented in an experiential learning setting. Assistant will have the opportunity to gain experience working with Naturalists at White Point and Geroge F Canyon Nature Education Center.

## Project Lead

Holly Gray  
Education Program Manager
