Do you enjoy our local nature and want to share it with others? Become a nature center and education docent!

Attend an orientation to learn about the many options available, depending upon your own interests and availability. Our two Nature Centers, White Point in San Pedro and George F Canyon in Rolling Hills Estates, are the hub for visitors to learn more about efforts by the Land Conservancy, not to mention local ecology, geology and cultural history! We also host educational programs for over 30 local elementary schools! Join us for a fun orientation to learn more about the programs we offer and how you can help educate youth!

No experience required, training will be provided.
Volunteers must be at least 18 years old.
