

My Home Is Your Home - HABITAT SURVEY

PVPLC works hard monitoring the habitat in our local nature preserves. You can do the same at home! This habitat survey can be completed during an adventure into your yard, while looking out a window or by exploring inside your house. Record what you see by checking the boxes below. Remember scientists, recording what you don't see is also valuable information!

FOOD

What types of food can wildlife find near your home?

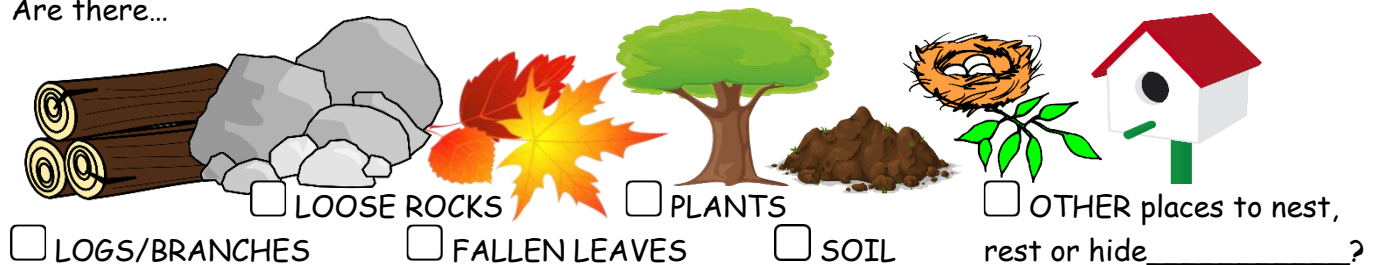

WATER

Is there a source of water for wildlife near your home?

SHELTER

Are there...

SAFETY

Make sure the wildlife around your home is safe.

NEXT STEP - Learn what you can do around your home to improve the habitat for wildlife!
