

Palos Verdes Peninsula Land Conservancy

Internship

Environmental Education/ Naturalist Intern

Description

A Naturalist Intern will work under the direction of a managing Naturalist to help in the nature centers run by the Conservancy. The centers are located at George F. Canyon and White Point Nature Preserves.

Tasks will include working in these Centers during opening hours, supporting onsite education programs, help with maintaining and developing exhibits and educational materials and helping with trail and demonstration garden monitoring and maintenance.

Project Lead

Holly Gray
Director of Education
