TRAIL CLOSURES will be in effect during and following significant rainfall to protect trails. Closures may also go into effect at various times for habitat protection and erosion prevention when deemed appropriate. Please respect any signs regarding these closures.

TRAIL MODIFICATIONS of any kind are not permitted in the Preserve. This includes construction of jumps, wooden ladders, earthen mounds, formation of berms and brush clearing.

The 191-acre property acquired December 31, 2009, capped a 21-year effort to preserve 900 contiguous acres of protected open space and create a wildlife corridor by linking the Three Sisters and Portuguese Bend Reserves. The Conservancy and the City of Rancho Palos Verdes brought together \$6.5 million in resources from State Coastal Conservancy and more than 700 local donors to complete the acquisition of this essential piece of land.

TRAILS

Located between the popular Portuguese Bend Reserve and the smaller Three Sisters, Filiorum Reserve features deep canyons, steep hills and great ocean views. There are a variety of trails that go through the park, so many routes are possible. The McBride Trail, along the upper crest of this reserve, is a nice easy trail that extends along the ocean side of the homes on Ocean Terrace Drive in Rancho Palos Verdes. From this trail there are magnificent views of the ocean and Catalina Island, as well as a close-up look at the Peninsula's characteristic geology.

If you're feeling a little more adventurous or want a longer more strenuous hike, you can take one of the other trails that connect to the neighboring reserves. Access Filiorum Reserve from McBride Trail located at the end of Ocean Terrace Drive, south of Highridge Road. Parking is available on city and residential streets.
